

eulife farm

PROTECT YOUR ANIMALS FROM VIRUSES IN THE AIR

Livestock farms have a new defense
against viral threats: swine flu

Efficacy greater than 90%

Tested against H1N1/A swine flu.

Fast action

Through the use of electromagnetic waves
that spread at the speed of light.

Scientifically tested

Tests performed in collaboration with
Virostatics at their Research Institute in Italy.

Made in Italy

Developed by ELT Group, a world leader
in the electronic defense industry for more
than 70 years. Italian research and production.

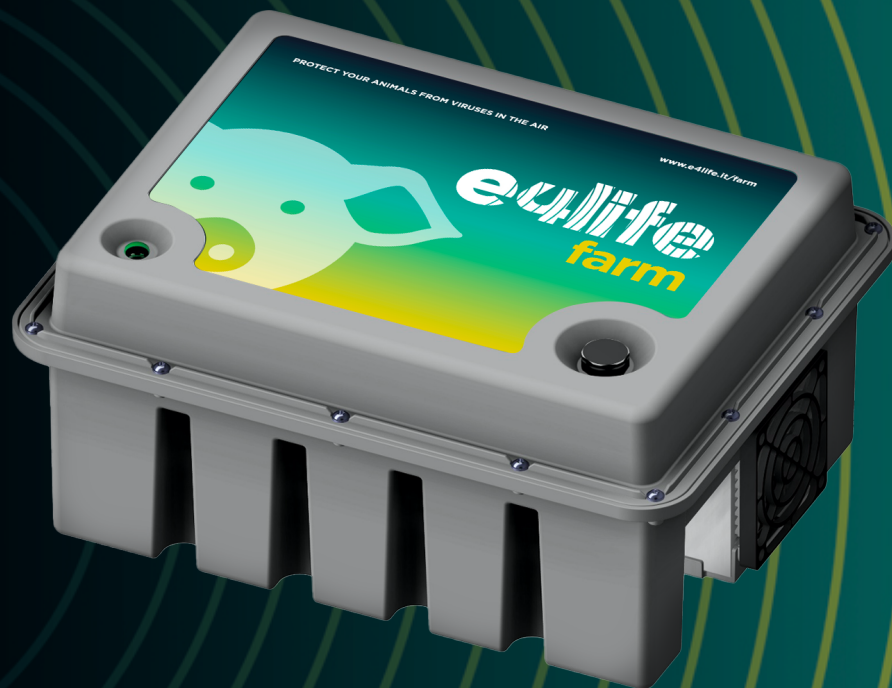

Certified Reliability and Security

- It is a CE-certified product.
- Absolutely safe for humans and animals.
- Does not impact the environment with chemicals.
- It does not require evacuation or room ventilation.

Studied and designed to be effective
in farms (IP65).

The **e4life farm** devices are designed specifically for pig farming and use innovative technology based on very high frequency electromagnetic waves to neutraliz the virus responsible for swine flu.

MODEL	e4life farm
BRAND	e4life
VERSION	Pigs
SIZE	265x215x125mm*
CASING MATERIAL	ABS
WEIGHT	2360g
ACCESSORIES	Quick start guide, mounting brackets
SUPPLY	100-240V 50/60Hz
CONNECTING CABLE	3x1.5mm ² (16AWG)
PROTECTION	IP65
MAXIMUM POWER CONSUMPTION	40W
INTERFACE	Bluetooth BLE 5.2 WiFi 802.11 b/g/n LED indicator

*Without mounting brackets
